ABOUT US

All India Mahila Sangh (AIMS) is a society registered in 2007 by Tamilnadu Act 27 of 1975 for the welfare of Women. All India Mahila Sangh (AIMS) is well known for its commitment to work with marginalized sections of the society and empower them to attain dignified quality of life.

All India Mahila Sangh (AIMS) is conducting motivational courses to make women with low self-esteem as performers. It is being done periodically to make them mentally strong women with good will power. Motivating Self Help Group has produced very good positive effects. The rural women have been immensely benefited and lead a confident life with self-employment. Also Child Care Services and Health Care Services are provided to impoverished women, who could not afford huge amount for maintaining children and giving adequate health care for their children.

AIMS is providing legal services to women who are subjected to torture, harassment, trafficking and also helps to get workmen's compensation for injured women. AIMS is providing Vocational Education to make women, skilled people and self-sufficient. All India Mahila Sangh (AIMS) plans to eliminate social discrimination in the society by educating primarily the women masses and making them lead a confident and happy life

MESSAGE FROM GENERAL SECRETARY

All India Mahila Sangh was established to promote education, gender equality and empower women and girls, and to removing any barriers that prevent full participation of women and girls in the public and political life. We believe in full and inclusive participation by all and that every person, man, women or community has the right and responsibility to contribute their talents, skills and resources to the work we do, for and with them. We are committed to promote full and equal access to social services, education, economic opportunities and decent work, for all Indians, specially marginalized women and children, they need our support to recognize their rights, achieve their basic needs; and ensure their participation in the elaboration and implementation of policies that effect their development, with full respect for their cultures, traditions and social norms. We believe that community participation is an essential part of the process of learning as well as community development. Therefore we consider participatory approaches as a critical instrument of our organisation. We are committed to work with marginalized communities, improve their lives, alleviate their suffering and develop a vision for change that will make a meaningful difference in their lives. We consider partnership as one of our key organizing principle; we are, therefore, committed to developing, maintaining and nurturing partnerships, including alliance and linkages- with institutions and individuals who identify our vision and mission

S/d -The General Secretary,
All India Mahila Sangh (AIMS)

PRESIDENT'S MESSAGE

I am honoured to be the President of All India Mahila Sangh. Being a woman's organisation to serve our society and active as always in our vibrant Indian community, has been a true test of our commitment to the service of women's community. Many generations of women have volunteered for providing women's education, but their efforts were scattered that only marginal success was possible throughout these years. This administration will continue to honour those women who have done exceptionally good work in spreading education, as well as the more current and future members of this dynamic organization. All India Mahila Sangh believes that by directly supporting women and girls, we are reducing inequalities and fostering progress for everyone. Our vision and approach are built on the experience we have gained over the years. They are also reinforced by numerous studies that show investing in education for girls, as well as vocational training and employment for women, produces a positive ripple effect on the entire community and ultimately on the entire country. I strongly believe in the power of talented individuals and innovative organizations to create deep change in their own societies through ground-breaking initiatives. I have also seen over the past years that the best way to make a large-scale impact on improving our country is by fostering partnerships and collaboration with and between these entrepreneurial individuals and organizations. In our choice of projects and programs, we focus on: innovation, the potential for growth and replication, systemic change and sustainability. Through our close collaboration with local partners, we have consolidated educational projects. Ultimately, our motivation is to help girls and women to realize their full potential in life through education and, in the process, to gain more hope for a brighter future. The support and expertise of our team with whom I wish to gratefully share our success, makes it all possible. Education to Women continues to inspire us as we strive to fulfil our mission.

S/d – The President,
All India Mahila Sangh

WOMEN'S EDUCATION

NEED OF WOMEN'S EDUCATION:

- a) Educating the women will empower them to seek gender equality in the society.
- b) Women will be able to earn that would raise their economic condition and their status in the society.
- c) They will be aware about the advantages of small and planned family and this will be a big step towards achieving stabilized population goals.
- d) It has been reported that the single most important factor affecting high total fertility rates (TFR) is the low status of women in many societies. Women education will help increase the age of marriage of women and they would tend to have fewer, healthier children who would live longer.
- e) Women on being educated would be able to rear their children in a better way, leading to their good health and provide them with better facilities.
- f) Women are also the victim of capitalism and development. Due to some development activity like dam building or mining, they get rehabilitated. The men folk get some compensation and migrate to towns in search of some job while women are left behind to look after the family with little resources. They are compelled to take up some marginalized work, which is highly unorganized and often socially humiliating. Women education can greatly help restore their settlement and dignity.
- g) Education of women would mean narrowing down of social disparities and inequities. This would automatically lead to sustainable development.

AIMS & OBJECTIVE

AIMS:

Our aim is to educate women from downtrodden and suppressed classes so that true equality for all women in India blossoms and move towards fully equal partnership of the sexes, as part of the world-wide revolution of human rights now taking place within and beyond our national borders. The purpose of our organization is to educate women to make them involve themselves in the mainstream Indian society, exercising all the privileges and responsibilities thereof in truly equal partnership with men

OBJECTIVES:

- To implement Women's Education for the attainment of equal status of women in all aspects of social political and economic development within the community and the nation at large.
- To organise and establish women's groups which individual and organisations committed to feminist goals can share the facilities and information on women issue or matters.
- To ensure the implementation of regulations geared towards the welfare and enhancement of the status of women.
- To educate the public on the rights of women and the means of enforcing such rights for the achievement of equality, development and peace.
- To co-operate with National and International NGO's and agencies by networking and co-aligning for the achievement of specific goals for the welfare and development of women.
- To work for peace, Women's Rights, Women's Education, economic and social justice
